1. Why did you decide to buy from us?

I decided to buy from Elite contractors Insurance Services for the following reason; after shopping around for a long time they were the ones that actually gave me a reasonable price. Everybody else was highly elevated as far as pricing and they did not have the service Elite offered.

2. What were your expectations, and how well did we meet them?

My expectations were low, let me rephrase that very low, after talking to so many other companies I had no hopes of getting a reasonable offer for my business. But after talking to Elite Contractors Insurance I was convinced they were the perfect outfit for me.

3. What benefits did you get from working with us?

The benefits I got from working with Elite Contractors is peace of mind. Also the ability to go about my business the way all us contractors should. It's not fair that we work hard to make a living and on top of it we still have to pay such high premiums. Elite was fair and fast.

4. Would you refer others to us? Why?

I would most defiantly refer more business to Elite Contractors. As a mater of fact I've already started the same day I got my bond I told my friends about it. From Landscapers to General Contractors, Elite is very highly recommended in my part.

5. Do we need to improve in any area to better meet your needs in the future?

I find this hard to say but NO!!! Everything was great from the application process to the following up on my request. Phone calls were great, friendly and professional. I would not change a thing.

6. Would you mind if we shared your testimonial on our website for others to see?

I would be honored to have this testimonials shared. Hopefully it brings in more businesses like mine to your doors. I must admit when I first started the whole process I did not know what to expect. But now I'm glad I did. Elite Contractors made me a believer and convinced me the same day I submitted payment. My License was in suspension for no bond and it was lifted within and hour of process with Elite Contractors. That my friend's is getting the work done.
